

Shindaiwa DGW310MC welder

£4,850.00

Shindaiwa

The Shindaiwa DGW310MC welder features a powerful 18.5 hp Kubota engine to cover even the most demanding welding needs. It is manufactured with the best quality materials which ensures a useful life of 7 years and its performance is exceptional, positioning itself among the best in the market. In addition, its Kubota engine has capacity for 37 liters of diesel and has two modes of use: eco consumption and single consumption. This allows the fuel efficiency to be better adapted to the needs you have for your work.

level reaches 58dba which makes them considered ultra quiet and promotes versatility of use.

Also, the Shindaiwa DGW310MC has a digital display that indicates voltage, time and speed.

These welding plants have spotlights to monitor water temperature, battery charge and oil pressure, so it is easy to identify when any of these aspects are not working properly. Similarly, for safety, when any of these bulbs flash the welder stops automatically to avoid any mishap and allow the problem to be resolved. Thanks to these features, they offer easy understanding and use for the operator, which in turn translates into more efficient results on site.
